Specifications
- Maximum input level: -6dBm (1mV)
- Maximum output level: -6dBm (less than 5%)
- Headphones: 100mV (32Ω) D: A/D conversion: 16-bit, 64-times oversampling D/A conversion: 16-bit
- Sampling frequency: 44.1 KHz
- Dynamic range: 88dB
- Number of programs: 5 user programs, 25 preset programs
- Total of 30 programs
- Effect in effects: GUITAR, COMPR/EXPRESS, DISTORTION/OVERDRIVE, 3-BAND EQ, CHORDS/FLANGER, DELAY/REVERB, MULTI-FX, COMPRESSOR, 3-BAND EQ, EXCITER, CHORDS/FLANGER, DELAY/REVERB
- (High Quality Type) BASS, COMPRESSOR, 5-BAND GRAPHIC EQ, DYNAMIC EQUALIZER, CHORDS/FLANGER
- DELAY/REVERB
- Display: 7-segment/2 LEDS
- IN/OUT: INPUT: R/L (MONO), PHONES: VOLUME PEDAL IN (GUITAR MULTI-FX), DC 9V (Nichicon Powercap DC 9V. 300mA)
- Size (W x H x D): 430 x 205 x 90mm (16.7/8 x 8.1/8 x 3-1/4)
- Weight: 1.5Kg (3 lbs, 5 oz)

Optional Accessories
- CFP-001 Volume Pedal
- SC-001 Light bag
- SC-05 Soft Case

KORG PERFORMANCE SIGNAL PROCESSOR (A-SERIES)

A1 PERFORMANCE SIGNAL PROCESSOR

Professional multi-effect unit with studio quality sound. Provides a wide selection of 60 effect groups and the unlimited creative potential of multi-effect processing.

A2 PERFORMANCE SIGNAL PROCESSOR

A2 effects and 97 chains - A multi-effect unit for every possible sound enhancement application.

A3 PERFORMANCE SIGNAL PROCESSOR

This versatile multi-effect unit has 41 effects and 20 different chains. It also allows you, through the use of ROM cards, to load additional effects and chains as desired.

KORG TUNER SERIES

Korg tuners are available in a wide range of styles and models to fit any need and any budget. They set the standard for precision, reliability and ease of use.

LEO METER TUNER SERIES

**Built-in Effects: COMPRESSOR | DYNAMIC EQ | DYNAMIC EXCITER | CHORUS | FLANGER | DELAY | REVERB**

The A5's Guitar unit has five effects that are indispensable for electric guitar sounds. The newly developed high-quality DISTORTION effect combines the warmth of a tube amplifier sound with the high gain of a solid-state amplifier.

The DELAY | REVERB program features an echo | reverb effect which creates a rich ambient sound through the combination of sound and delay. The delay and reverb amounts are adjustable, and there are 9 different delay types available.

The Built-in Effects provide a wide variety of applications, from keyboard and guitar processing to effects loops in multi-tracking recording and PA situations. The Multi-FX unit features a professional quality effect programs that are useful for adding character to any sound. For example, a compressor can be used to create effects or an echo for adding depth and dimension. The DELAY | REVERB program provides studio-quality ambiance and is also equipped with a volume pedal input terminal for subtle dynamic control.

Among the programs, Bank 1 is programmed for Banks 2, 3, 4, 5, and 6 are preset programs for guitars with feedback. Programs 1 and 2 in all banks have a powerful distortion sound. Program 3 features a natural ambience sound. Program 4 is a clean sound with no distortion elements. Program 5 is a special switching program, particularly effective when simultaneously playing clean and distorted sounds.

**Performance Signal Processor A5**

**A CUT ABOVE THE REST**

**AWESOME PERFORMANCE FROM A TRIO OF EFFECT UNITS - THE A5**

When you're performing or recording, effects are absolutely essential element of your sound. With the exciting production standards of popular music, the arranging effect is a vital tool to your sound. With the right effects, however, your music can be outstanding. That's where the KORG A5 Signal Processor comes in. It packs a wealth of preset programs that add expressive processing to your sound. You can edit programs using the intuitive analog-style controls and save your settings to memory. No matter what your level of musical expertise is, the A5 has what it takes to make your performance the very best it can be.

**Built-in Effects: COMPRESSION | GRAPHIC EQ | DYNAMIC EXCITER | CHORUS | FLANGER | DELAY | REVERB**

This model was designed especially for bass guitars. The effects have been created and programmed to match the sonic range of the bass. This results in a much fuller effect sound than possible by using guitar or PA effect processors.

The unit also features a new and unique effect, a dynamic equalizer, that applies an effect only when the strings are struck at a high volume. Also included is a 3-band graphic equalizer that allows you to precisely conform the sound of your bass.

Among the programs, Bank 1 is reserved for user programs. Banks 2, 3, 4, 5, and 6 are preset programs. Programs 1 and 2 in all banks are designed especially for use with the 808 laptop and have the drums and the effects also for the bass. Program 3 in all banks is for drumming, while Program 4 in all banks provides an equalizer, chorus, and reverb effects for various bass sounds. Program 5 effects are for playing with a pick. The various effects are designed to satisfy every kind of bass player by matching instrument and technique with the correct sound.

**Built-in Effects: COMPRESSION | BRASS GRAPHIC EQ | DYNAMIC EXCITER | CHORUS | FLANGER | DELAY | REVERB**

This model was designed especially for electric guitars. All the effects have been created and programmed to match the sonic range of the guitar. This results in a much fuller effect sound than possible by using guitar or PA effect processors.

The unit also features a new and unique effect, a dynamic equalizer, that applies an effect only when the strings are struck at a high volume. Also included is a 3-band graphic equalizer that allows you to precisely conform the sound of your guitar.
